Health and Safety Specialist

Bay West, Inc provides environmental investigation, design, engineering, remediation and waste management to industry and government.

Bay West, Inc., an environmental contractor and consulting company, seeks a Health and Safety Specialist to assure safe and healthy environments for its employees, clients, and other business stakeholders both at Bay West and at Bay West job sites around the country. The Health and Safety Specialist will be responsible for the development, and coordination of practices that will ensure compliance with applicable safety, health, and environmental regulations. This individual will also deliver compliance training and consulting, maintain and update corporate health and safety policies, and provide individualized project support. Qualifications include a bachelor's degree in related field with four years of industrial or construction safety or related experience. Working towards obtaining a Certification as Safety Professional preferred. Periodic travel to project sites and relocation to Minnesota required.

Employment with Bay West includes direct and indirect compensation such as performance bonuses, health benefits, PTO, retirement plan, and a full employment experience with challenging work, work/life flexibility, direct management/mentor relationships, and career development opportunities.
